

PRODUCT SPECIFICATION

RUBIX RECESSED

INTRODUCTION

For premium office applications the Rubix Recessed brings a new level of style and functionality to the market. Nine individual cells with precise optical control allow for spacings up to three by three meters whilst still maintaining 400 lux on the working plane at typical ceiling heights and also providing compliance with UGR 19 in most room sizes. The main source is complimented by a surrounding diffused back lit halo ensuring that the Rubix combines a unique style with optimum performance.

The halo effect brings new functionality to our recessed range with the ability to individually switch either the 9 cells or the halo allowing for low level background lighting or emergency operation. The Rubix Recessed is supplied with a 600x600 metal trim as standard however is available in a range of sizes such as 500x500 and 750x750 and can also be supplied in lay in and surface mount variants. A range of presence detection and daylight regulation sensors can also be incorporated into the surrounding trim or air handling channels if required. All variants of the Rubix are also available with all common dimming and lithium emergency options. We offer a range of wireless control systems providing localised grouping and control as well as comprehensive wireless solutions allowing both standard and emergency luminaires to be centrally monitored.

SPECIFICATION

CONSTRUCTION

- Housing: 0.7mm CR4 steel
- Finish: Polyester powder painted BS 00E55 matt white 60% gloss
- Finish: Polyester powder painted RAL 9006 matt grey
- Finish: Polyester powder painted RAL 9005 matt black
- Diffuser: Injection moulded high transmission opal polycarbonate cell with miro silver aluminium inserts and

injection moulded clip on bezel

- IP20
- 9 Cells and outer halo can be separately switched for low level background and emergency lighting.

;

PERFORMANCE

- Part L2 compliant
- BSEN 12464-1:2011 3000 Candela 65° and UGR 19 compliance
- 3SDCM Three step Macadams ellipse
- TM21: L90>60K Hours / L80>90K Hours
- Up to 130 luminaire lumens per circuit Watt.

;

ENVIRONMENTAL

- Designed to allow simple replacement of components with commonly available tools in compliance with the Eco Design Directive, please see the installation leaflet for maintenance instructions.
- All critical components are mounted on a single tray for simple end of life repair or upgrade.
- Powered by European branded drivers and emergency modules ensuring replacement parts are easily sourced.
- Every luminaire is labelled with a unique ID number allowing easy identification of spare parts for the lifetime of the product.
- Contains no single use plastics or polystyrene packaging.
- Supplied in plain card boxes with paper tape ensuring packaging is easily recycled.
- Designed to allow simple disassembly for end of life recycling.
- UK based manufacturing providing local support throughout the product lifetime and minimising transportation miles.

;

EMERGENCY

- Available with optional standard, self test and autotest integral emergency with lithium batteries for extended warranty and lifetime.
- Optional Reacta-Link wireless emergency for automated centralised reporting.
- Optional Reacta-Control wireless emergency for automated centralised reporting.
- Optional central battery changeover relay

;

CONTROL

- HFR 1-10V analogue dimming

- Optional compatibility with a range of dimming systems including DALI, DSI and Switch Dimming
- Optional Integral R44 presence and daylight sensor
- Optional Integral Reacta-Air wireless presence and daylight regulations sensor
- Optional integral Reacta-Link for integration with Reacta-Link wireless installations
- Optional integral Reacta-Control for integration with Reacta-Control wireless installations

;

INSTALLATION

- Suitable for lay-in installation in exposed T ceilings
- Suitable for pull-up installation in concealed grid ceilings
- Suitable for plasterboard installation when purchased with the appropriate plasterboard kit

;

VARIATIONS

- Available with a wide range of colour temperatures and renderings
- Available in a range of housing sizes and lumen outputs
- Available in white, black or grey finishes
- Available with a range of cell colours
- Available in 500x500, 750x750 and air handling variants.

WARRANTY

At Dextra our commitment to service has been at the forefront throughout our history spanning more than forty years in the UK lighting market. Our service ethos extends beyond design and delivery, we believe supporting your installation throughout the warranty period is equally crucial, whilst the strength and longevity of Dextra Group provides peace of mind that our warranty will be supported throughout.

The Dextra range is supplied with a five year warranty commencing from the date of delivery. During the first three years defects will be repaired on site and the warranty will include both parts and labour. For the final two years drivers, emergency modules, wireless modules, sensors and LED circuits will be supplied free of charge to replace defective components, labour and other associated costs are not included.

Certain ranges and components are subject to exemptions:

- Lithium batteries are provided with a five year warranty. During the first three years defects will be repaired on site and the warranty will include both parts and labour. For the final two years replacement batteries will be supplied free of charge to replace defective components. Five year warranty became effective as of 03/02/25, Lithium emergency luminaires supplied prior to this date are supported with a three year on site warranty only. Labour and other associated costs are not included. Nickel Metal Hydride and Nickel Cadmium batteries are provided with a one year warranty for parts and labour.

- Emergency luminaires including AME2, EXI LED, EXI3, EXI Track, HBE3, OAT2 LED and Twinspot are supplied with a one year warranty for parts and labour. Lithium variants suffixed with the 5YR part code, the Autotest emergency with the LA3 part code and wireless variants with LA3RC or LSTR part codes are supplied with a five year warranty. For these extended warranty variants for the first three years defects will be repaired on site and the warranty will include both parts and labour. For the final two years replacement batteries will be supplied free of charge to replace defective components.
- Protec Micro, PTECF7 Fire Rated Downlights, Serenus and the Opus Sconce are provided with a five year replacement luminaire only warranty. Protec FR Fire Rated Downlights are provided with a 2 year replacement luminaire only warranty.
- Controls systems such as standalone sensors, switches, marshalling boxes and cabling are provided with a one year warranty for both parts and labour. DALI control systems are provided with a two year warranty for both parts and labour.
- LEDextra ranges are supplied with a three year parts or replacement luminaire only warranty with the exception of the IMPR RGBW, the Runway RGBW, the MOD RGBW, Tanek RGBW and the DexRing. These five ranges are supplied with our standard five year warranty during which defects within the first three years will be repaired on site and the warranty includes both parts and labour. For the final two years free of charge replacement components only will be supplied to rectify any failures but labour and other associated costs are not included.
- LEDEX ranges are supplied with a three year replacement luminaire only warranty.
- The Decorative Pendant ranges, Bebo, Dene, Nova, Fino and Stix are supplied with a 3 year replacement luminaire only warranty.

All warranties are subject to correct use of the product and will be invalidated by misuse, for example incorrect installation, unsuitable environmental conditions or incorrect maintenance. It is the duty of the customer to ensure that all the fault lies with the luminaire prior to requesting replacement parts or site repairs. In the event that no defect is found with the product our costs for attending site will be recharged to the customer and credit will not be issued against returned products. No consequential losses incurred resulting from any defect with our product will be reimbursed.

Given the nature of LED technology a small percentage of LEDs may fail during the lifetime of a luminaire, this does not cause a reduction in lumen output. As such LED luminaires are only deemed to be faulty for warranty purposes when in excess of ten percent of LEDs have failed in a single luminaire.

On site repair of products under warranty will be undertaken during normal working hours, 9am to 5pm Monday

to Friday, and will require unrestricted access to luminaires. Where required Dextra will provide access equipment to carry out repairs at height, should luminaires have been installed in locations where reasonable provision for maintenance access has not been made we reserve the right to supply replacement product only. On site warranty repairs will only be undertaken on the mainland of the UK and Ireland, in all other locations replacement product only will be provided.

If you require any assistance with regards to our products please contact our Customer Services department on 01747 858100.

ORDER CODES

LUMINAIRE

600x600mm

| Code | Description | Power | Llm/W |
|----------|---|-------|-------|
| RBXR L32 | Rubix, Lay In, 600x600, 2,899lm, Opal Cell, Colour 84 | 22.9W | 126 |
| RBXR L40 | Rubix, Lay In, 600x600, 3,406lm, Opal Cell, Colour 84 | 26.3W | 129 |
| RBXR L45 | Rubix, Lay In, 600x600, 3,914lm, Opal Cell, Colour 84 | 30.1W | 130 |

For Alugrid compatible versions please specify lay-in luminaire with correct ALU suffix shown in miscellaneous ordering codes

Custom housing sizes available on request.

For plasterboard installations please use lay in luminaire and order MOD L PBK66 plasterboard installation kit.

OPTIC

| Code | Description |
|------|-------------|
| BLK | Black Cell |
| BLE | Blue Cell |
| ORA | Orange Cell |
| RED | Red Cell |

DIMMING

| Code | Description |
|------|---|
| A | DALI Digital Addressable Lighting Interface |
| S | Switch Dimming |
| D | DSI Digital Dimming |
| H | HFR Analogue 1-10v |
| C | Bi-Level Dimming For Standalone Switched Sensor |

The Rubix recessed DALI use two drivers per luminaire requiring two addresses on the DALI network.

CONTROL

| Code | Description |
|------|---|
| R44 | Reacta 44, Presence & Daylight, 2.5-7M |
| D44 | DexNET Sensor, Wireless, Presence & Daylight |
| DN | DexNET Node, Wireless Node only |
| RAS | Reacta-Air Bluetooth, Wireless, Presence & Daylight, 2.5-3M |
| RLI | Reacta-Link, Wireless Enabled Luminaire |
| RLS | Reacta-Link Wireless, Presence & Daylight, 2.5M-5M |
| RC | Reacta-Control, Wireless Enabled Luminaire |
| RCS | Reacta-Control Wireless, Presence & Daylight, 2.5-4M |

EMERGENCY

| Code | Description |
|-------|--|
| LE3 | Lithium Standard Emergency 3 Hour |
| LS3 | Lithium Selftest Emergency 3 Hour |
| LA3 | Lithium Autotest Emergency 3 Hour |
| LSTR | Lithium Reacta-Link Emergency 3 Hour |
| LA3RC | Lithium Reacta-Control Emergency 3 Hour |
| CB | Central Battery, Please Specify 110V or 230V when Ordering |

MISCELLANEOUS

| Code | Description |
|-------|---|
| C** | Select Colour Temperature and Rendering; C827, C83, C85, C865, C93, C94 |
| AH25 | Air Handling, 25 litres per second |
| BL | Black Finish |
| GY | Grey Finish |
| ALU16 | Alugrid 15/16 Ceiling Compatible |
| ALU08 | Alugrid 15/08 Ceiling Compatible |
| LSF | Low Smoke Zero Halogen |

In order to switch the main 9 cells and halo section, two live feeds or two digital feeds must be connected to the luminaire.

WARNING: Luminaire must be earthed. Risk of electric shock from LED boards if operated with cover removed. Installation / operation outside of luminaires intended scope invalidates warranty. Suitable only for domestic / light industrial / industrial applications within the scope of EN55015. Tested to compliance with BSEN 60598: specification for general requirements and tests. Must be installed by a suitably qualified person in accordance with all relevant legislation. Ambient operating temperature of 0°C to 25°C. If maximum operating temperature is exceeded luminaire will automatically dim / switch off. Terminal blocks are rated to 16A unless stated otherwise. The light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person.

LUMINAIRES WITH EMERGENCY PACK: When supply is isolated battery output terminals may be live if battery is connected. Isolate mains and battery before servicing. Emergency luminaires require unswitched live connection taken from same phase as switched supply. When unswitched supply is connected status indicator illuminates green, when unswitched supply is disconnected indicator extinguishes and luminaire operates in emergency mode. 24 hour charge period required before undertaking full discharge test. Emergency test sheets provided should be used to record all emergency tests. Batteries should be replaced when 3 hour duration is not met. Excessive switching of permanent live may result in premature battery failure. Battery electrolyte can be harmful to eyes / open wounds, do not puncture, if electrolyte touches skin / eyes flush with water. Do not incinerate batteries.

Maintenance

- ① Disconnect luminaire before undertaking any maintenance or cleaning.
- ② Cleaning should be undertaken on external parts of the luminaire only using a slightly damp lint free cloth.
- ③ To access LED tray use a pan pozi screwdriver to remove screws.
- ④ Use a pan pozi driver to remove components.
- ⑤ Please contact Dextra for assistance with spare components supply.
